The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

--

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change

Partial Amendment

Add Remove View

--

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of Proposed Rule Change

- (a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”)¹ and Rule 19b-4 thereunder,² NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) proposes to list and trade option contracts on the iShares Bitcoin Trust, the Fidelity Wise Origin Bitcoin Fund, and the ARK21Shares Bitcoin ETF.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1 and the text of the proposed rule change is attached as Exhibit 5.

- (b) The Exchange does not believe that the proposed rule change will have any direct effect, or any significant indirect effect, on any other Exchange rule in effect at the time of this filing.
- (c) Not applicable.

2. Procedures of the Self-Regulatory Organization

Senior management has approved the proposed rule change pursuant to authority delegated to it by the Board of the Exchange. No further action is required under the Exchange’s governing documents. Therefore, the Exchange’s internal procedures with respect to the proposed rule change are complete.

The person on the Exchange staff prepared to respond to questions and comments on the proposed rule change is:

Kathleen E. Murphy
Senior Counsel
NYSE Group, Inc.
(212) 656-4841

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend Rule 5.3-O (Criteria for Underlying Securities), Rule 5.4-O (Withdrawal of Approval of Underlying Securities), Rule 5.32-O (Terms of FLEX Options), and Rule 6.8-O (Position Limits,) to allow the Exchange to list and trade options on the following exchange-traded products: the iShares Bitcoin Trust (“iShares Bitcoin” or “IBIT”), the Fidelity Wise Origin Bitcoin Fund (“Fidelity Wise” or “FBTC”), and the ARK21Shares Bitcoin ETF (“ARK21” or “ARKB”) (collectively, the “Bitcoin

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

Funds” or “Funds”).

The Exchange notes that this is a competitive filing as the Commission recently approved rule proposals by Nasdaq ISE, LLC (“ISE”) and Cboe Exchange, Inc. (“Cboe”) to allow the listing and trading of options on IBIT³ and on FBTC and ARKB, respectively.⁴ The Exchange notes that bitcoin-backed ETPs are already approved for options trading on its affiliated exchange, NYSE American LLC.⁵ As discussed below, the Exchange believes options on the Bitcoin Funds would permit hedging, and allow for more liquidity, better price efficiency, and less volatility with respect to the underlying Funds. Further, permitting the listing of such options would enhance the transparency and efficiency of markets in these and correlated products.

Rule 5.3-O provides that, subject to certain other criteria set forth in the Rule,⁶ securities deemed appropriate for options trading include Exchange-Traded Fund Shares (or ETFs) that represent certain types of interests⁷ and exchange-traded products (“ETPs”)

³ See Securities Exchange Act Release No. 101128 (September 20, 2024), 89 FR 78942 (September 26, 2024) (SR-ISE-2024-03) (Notice of Filing of Amendment Nos. 4 and 5 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment Nos. 1, 4, and 5, to Permit the Listing and Trading of Options on the iShares Bitcoin Trust) (“IBIT Approval Order”).

⁴ See Securities Exchange Act Release No. 101387 (October 18, 2024), 89 FR 84948 (October 24, 2024) (SE-CBOE-2024-035) (Notice of Filing of Amendment Nos. 2 and 3 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment Nos. 2 and 3, To Permit the Listing and Trading of Options on Bitcoin Exchange-Traded Funds) (“FBTC and ARKB Approval Order”).

⁵ See Securities Exchange Act Release No. 101386 (October 18, 2024), 89 FR 84960 (October 24, 2024) (SR-NYSEAMER-2024-49) (Order approving the listing and trading of options on shares of the Grayscale Bitcoin Trust (BTC) (symbol: GBTC), the Grayscale Bitcoin Mini Trust (BTC) (symbol: BTC), and the Bitwise Bitcoin ETF (symbol: BITB)) (the “American Bitcoin Options Approval Order”). See also NYSE American Rule 915, Commentary .10(a). Taken together with the IBIT Approval Order and the FBTC and ARKB Approval Order, the Bitcoin Approval Order, further illustrates that this proposal does not raise any new or novel issues not previously considered by the Commission.

⁶ To be eligible for options trading, ETFs and ETPs must satisfy the initial listing criteria set forth in Rule 5.3-O(g)(1) through (2).

⁷ Rule 5.3-O(g) permits options trading on ETFs that are traded on a national securities exchange and are defined as an “NMS stock” in Rule 600(b)(55) of Regulation NMS, that represent interests in registered investment companies (or series thereof) organized as open-end management investment companies, unit investment trusts or similar entities that hold portfolios of securities and/or financial instruments including, but not limited to, stock index futures contracts, options on futures, options on securities and indexes, equity caps, collars and floors, swap agreements, forward contracts, repurchase agreements and reverse purchase agreements (the “Financial Instruments”), and money market instruments, including, but not limited to, U.S. government securities and repurchase agreements (the “Money Market Instruments”) comprising or otherwise based on or representing investments in indexes or portfolios of securities and/or Financial Instruments and Money Market Instruments (or that hold securities in one or more other registered investment companies that themselves hold such portfolios of securities and/or Financial Instruments and Money Market Instruments); interests in a trust or similar entity that holds a specified non-U.S. currency deposited with the trust or similar entity when aggregated in some specified minimum number may be surrendered to the trust by the beneficial owner to receive the specified non-U.S. currency and pays the beneficial owner interest and other distributions on deposited non-U.S. currency, if any, declared and paid by the trust (“Currency Trust Shares”); commodity pool interests principally engaged, directly or indirectly, in holding and/or managing portfolios or baskets of securities, commodity futures

structured as trusts that hold precious metals (which are deemed commodities).⁸ Like ETPs backed by precious metals (i.e., commodities), the Exchange proposes to allow options trading on the Bitcoin Funds that hold Bitcoin -- which is also deemed a commodity.⁹

The Bitcoin Funds are structured as trusts that hold bitcoin. Like ETFs and ETPs currently deemed appropriate for options trading, the investment objective of each Bitcoin Fund trust is for its shares to reflect the performance of Bitcoin (less the expenses of the trust's operations), offering investors an opportunity to gain exposure to Bitcoin without the complexities of Bitcoin delivery. Each Bitcoin Fund's shares represent units of fractional undivided beneficial interest in the trust, the assets of which consist principally of Bitcoin and are designed to track Bitcoin or the performance of the price of Bitcoin and offer access to the Bitcoin market.¹⁰ The Bitcoin Funds provide investors with cost-efficient alternatives that allow a level of participation in the Bitcoin market through the securities market.

The Exchange believes each Bitcoin Fund satisfies the Exchange's initial listing standards set forth in Rule 5.3-O(a).¹¹ The Exchange notes that the Bitcoin Funds also satisfy the listing standard applied to ETFs traded on the Exchange that they be available for creation and redemption each business day as set forth in Rule 5.3-O(g)(1)(B).¹²

First, each of the Bitcoin Funds satisfy the criteria and guidelines set forth in Rule 5.3-O.

contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and/or non-U.S. currency ("Commodity Pool Units"); or represents an interest in a registered investment company ("Investment Company") organized as an open-end management investment company or similar entity, that invests in a portfolio of securities selected by the Investment Company's investment adviser consistent with the Investment Company's investment objectives and policies, which is issued in a specified aggregate minimum number in return for a deposit of a specified portfolio of securities and/or a cash amount with a value equal to the next determined net asset value ("NAV"), and when aggregated in the same specified minimum number, may be redeemed at a holder's request, which holder will be paid a specified portfolio of securities and/or cash with a value equal to the next determined NAV ("Managed Fund Share"); provided that all of the conditions listed in Rules 5.3-O and 5.4-O are met. See Rule 5.3-O(g)(i)-(iii) and (vii)

⁸ Rule 5.3-O(g) permits the listing and trading of options on shares of the following trusts: SPDR Gold Trust, the iShares COMEX Gold Trust, the iShares Silver Trust, the ETFS Silver Trust, the ETFS Gold Trust, ETFS Palladium Trust, or ETFS Platinum Trust. See Rule 5.3-O(g)(iv)-(vi) and (viii)-(ix).

⁹ See proposed Rule 5.3-O, Commentary .01 (The Exchange may list and trade options on shares of IBIT, FBTC, and ARKB, pursuant to Rules 5.3-O and 5.4-O).

¹⁰ Each trust may include minimal cash.

¹¹ Rule 5.3-O(a) provides for guidelines to be used by the Exchange when evaluating potential underlying securities for Exchange option transactions.

¹² Rule 5.3-O(g)(1)(B) requires that ETFs must be available for creation or redemption each business day from or through the issuer in cash or in kind at a price related to net asset value, and the issuer must be obligated to issue ETFs in a specified aggregate number even if some or all of the investment assets required to be deposited have not been received by the issuer, subject to the condition that the person obligated to deposit the investments has undertaken to deliver the investment assets as soon as possible and such undertaking is secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the issuer, as provided in the respective prospectus.

Pursuant to Rule 5.3-O(b), a security on which options may be listed and traded on the Exchange must be duly registered (with the Commission) and be an NMS stock (as defined in Rule 600 of Regulation NMS under the Act) and be characterized by a substantial number of outstanding shares that are widely held and actively traded.¹³ Each of the Bitcoin Funds is an NMS Stock as defined in Rule 600 of Regulation NMS under the Act.¹⁴ The Exchange believes each Bitcoin Fund is characterized by a substantial number of outstanding shares that are widely held and actively traded.

The Bitcoin Funds had the following number of shares outstanding:

Bitcoin Fund	Shares Outstanding
IBIT (as of 8/12/24)	611,040,000
FBTC (as of 8/7/24)	201,100,100
ARKB (as of 8/7/24)	45,495,000

As shown above, each of the Bitcoin Funds had significantly more than 7,000,000 shares outstanding, which is the minimum number of shares of a corporate stock that the Exchange generally requires to list options on that stock pursuant to the Exchange's rules. The Exchange believes this demonstrates that each Bitcoin Fund is characterized by a substantial number of outstanding shares.

Further, the below table contains information regarding the number of beneficial holders of the Bitcoin Funds.

Bitcoin Fund	Number of Beneficial Holders
IBIT	193,956 (as of 5/22/23)
FBTC	279,656 (as of 6/27/24)
ARKB	69,425 (as of 6/26/24)

¹³ The criteria and guidelines for a security to be considered widely held and actively traded are set forth in Rule 5.3-O(a), subject to exceptions.

¹⁴ An "NMS stock" means any NMS security other than an option, and an "NMS security" means any security or class of securities for which transaction reports are collected, processed, and made available pursuant to an effective transaction reporting plan (or an effective national market system plan for reporting transaction in listed options). See 17 CFR § 242.600(b)(64) (definition of "NMS security") and (65) (definition of "NMS stock").

Each Bitcoin Fund has significantly more than 2,000 beneficial holders, which is the minimum number of holders the Exchange generally requires for corporate stock in order to list options on that stock pursuant to the Exchange’s rules. Therefore, the Exchange believes the shares of each Bitcoin Fund are widely held.

In addition, the Exchange believes the shares of each Bitcoin Fund are actively traded. The total trading volume (by shares and notional) for these funds since they began trading and the average daily volume (“ADV”) over the 30-day period of July 9 through August 7, 2024, was as follows:

Bitcoin Fund	Trading Volume (Shares)	Trading Volume (Notional \$)	ADV (Shares)
IBIT (as of 5/13/24)	34,825,921	1,246,060,738	26,000,000
FBTC (as of 8/7/24)	1,112,861,581	250,354,755	6,014,335
ARKB (as of 8/7/24)	279,360,739	90,484,307	1,893,335

As demonstrated above, even though these Bitcoin Funds have been trading for less than one year, the trading volume for each is substantially higher than 2,400,000 shares, which is the minimum 12-month volume the Exchange generally requires for a security in order to list options on that security. The Exchange believes this data demonstrates each Bitcoin Fund is characterized by a substantial number of outstanding shares that are actively traded.

In addition to satisfying the Exchange’s initial listing standards, options on Bitcoin Funds will be subject to the Exchange’s continued listing standards as set forth in Rule 5.4-O.¹⁵ Pursuant to Rule 5.4-O(b)(5), the Exchange will not open for trading any additional series of option contracts covering a fund traded on the Exchange if such fund ceases to be an “NMS stock” or the fund is halted from trading on its primary market.¹⁶ Additionally, options on funds traded on the Exchange may be subject to the suspension of opening transactions as follows: (1) the fund no longer meets the terms of Rule 5.4-O(b)(1)-(4); (2) following the initial twelve-month period beginning upon the commencement of trading of the fund, there are fewer than 50 record and/or beneficial holders of the fund for 30 or more consecutive trading days; (3) the value of the underlying commodity is no longer calculated or available; or (4) such other event occurs or condition exists that in the opinion of the Exchange makes further dealing on the Exchange inadvisable.

¹⁵ The Exchange proposes to adopt Commentary .02 to Rule 5.4-O to specify that for purposes of the continued listing standards set forth in Rule 5.3-O(k), the Bitcoin Funds will be deemed “Exchange-Traded Fund Shares.” See proposed Commentary .02 to Rule 5.4-O.

¹⁶ See Rule 5.4-O(k).

Options on each Bitcoin Fund will be physically settled contracts with American-style exercise.¹⁷ Consistent with Rule 6.4-O, which governs the opening of options series on a specific underlying security (including ETFs and ETPs), the Exchange will open at least one expiration month for options on each Bitcoin Fund¹⁸ at the commencement of trading on the Exchange and may also list series of options on Bitcoin Funds for trading on a weekly,¹⁹ monthly,²⁰ or quarterly²¹ basis. The Exchange may also list long-term equity option series (“LEAPS”) that expire from twelve to thirty-nine months from the time they are listed.²²

Pursuant to Rule 6.4-O, Commentary .05(a), which governs strike prices of series of options on ETFs, the interval between strike prices of series of options on Bitcoin Funds will be \$1 or greater when the strike price is \$200 or less and \$5 or greater where the strike price is over \$200.²³ Additionally, the Exchange may list series of options pursuant to the \$1 Strike Price Interval Program,²⁴ the \$0.50 Strike Program,²⁵ the \$2.50 Strike

¹⁷ See Rule 6.5-O (Rights and Obligations of Holders and Writers), which provides that the rights and obligations of holders and writers of option contracts of any class of options dealt in on the Exchange shall be as set forth in the Rules of the Clearing Corporation. See also OCC Rules, Chapter VIII, which governs exercise and assignment, and Chapter IX, which governs the discharge of delivery and payment obligations arising out of the exercise of physically settled stock option contracts. OCC Rules can be located at: https://www.theocc.com/getmedia/9d3854cd-b782-450f-bcf7-33169b0576ce/occ_rules.pdf.

¹⁸ See Rule 6.4-O(d). The monthly expirations are subject to certain listing criteria for underlying securities described within Rule 5.3-O. Monthly listings expire the third Friday of the month. The term “expiration date” (unless separately defined elsewhere in the OCC By-Laws), when used in respect of an option contract (subject to certain exceptions), means the third Friday of the expiration month of such option contract, or if such Friday is a day on which the exchange on which such option is listed is not open for business, the preceding day on which such exchange is open for business. See OCC By-Laws Article I, Section 1. Pursuant to Rule 903(d), additional series of options of the same class may be opened for trading on the Exchange when the Exchange deems it necessary to maintain an orderly market, to meet customer demand or when the market price of the underlying stock moves more than five strike prices from the initial exercise price or prices. New series of options on an individual stock may be added until the beginning of the month in which the options contract will expire. Due to unusual market conditions, the Exchange, in its discretion, may add a new series of options on an individual stock until the close of trading on the business day prior to expiration.

¹⁹ See Rule 6.4-O, Commentary .07.

²⁰ See Rule 6.4-O, Commentary .09.

²¹ See Rule 6.4-O, Commentary .08.

²² See Rule 6.4-O(d).

²³ The Exchange notes that for options listed pursuant to the Short Term Option Series Program, the Monthly Options Series Program, and the Quarterly Options Series Program, Rule 6.4-O, Commentary .07 through .09, specifically set forth intervals between strike prices on Quarterly Options Series, Short Term Option Series, and Monthly Options Series, respectively.

²⁴ See Rule 6.4-O, Commentary .04.

²⁵ See Rule 6.4-O, Commentary .13.

Price Program,²⁶ and the \$5 Strike Program.²⁷ Pursuant to Rule 6.72-O, where the price of a series of a Bitcoin Fund option is less than \$3.00, the minimum increment will be \$0.05, and where the price is \$3.00 or higher, the minimum increment will be \$0.10.²⁸ Any and all new series of Bitcoin Fund options that the Exchange lists will be consistent and comply with the expirations, strike prices, and minimum increments set forth in Rules 6.4-O and 6.72-O, as applicable. Further, the Exchange notes that Rule 4.16-O, which governs margin requirements applicable to the trading of all options on the Exchange, including options on ETFs and ETPs, will also apply to the trading of Bitcoin Fund options.

Rule 5.32(f)(1) permits the Exchange to authorize for trading a FLEX option class on any equity security if it may authorize for trading a non-FLEX option class on that equity security pursuant to Rule 5.3-O.²⁹ At this time, the Exchange is not proposing to permit Bitcoin Fund options to trade as FLEX options.³⁰ The Exchange therefore proposes to modify Rule 5.32(f)(1) to specify this exception, which will add clarity and transparency to Exchange Rules.³¹

Position and Exercise Limits

Position and exercise limits for options, including options on Bitcoin Funds, are determined pursuant to Rules 6.8-O and 6.9-O, respectively. Position and exercise limits for options vary according to the number of outstanding shares and the trading volumes of the underlying security over the past six months, where the largest in capitalization and the most frequently traded funds have an option position and exercise limit of 250,000 contracts (with adjustments for splits, re-capitalizations, etc.) on the same side of the market; and smaller capitalization funds have position and exercise limits of 200,000, 75,000, 50,000 or 25,000 contracts (with adjustments for splits, re-capitalizations, etc.) on the same side of the market.³²

²⁶ See Rule 6.4-O, Commentary .03.

²⁷ See Rule 6.4-O, Commentary .10.

²⁸ If options on a Bitcoin Fund are eligible to participate in the Penny Interval Program, the minimum increment of \$0.01 below \$3.00 and \$0.50 above \$3.00 would apply. See Rule 6.4-O(a)(3). See also Rule 6.72A-O (which describes the requirements for the Penny Interval Program).

²⁹ See Rule 5.32-O(f)(1). See generally Section 4 (Flexible Exchange (“FLEX”) Options).

³⁰ The Exchange will continue ongoing discussions with the Commission regarding appropriate position limits for the Bitcoin Funds and plans to submit a separate rule filing that would permit the Exchange to authorize for trading FLEX options on the Funds (which filing may propose changes to existing FLEX option position limits for such options if appropriate).

³¹ See proposed Rule 5.32(f)(1) (providing, in relevant part, that the Exchange may approve and open for trading any FLEX Equity Options series on any equity security that is eligible for Non-FLEX Options trading under Rule 5.3-O “except those set forth in Commentary .01 to Rule 5.3-O,” i.e., the Bitcoin Funds).

³² See Commentary .06(a)-(e) to Rule 6.8-O. For an option to be eligible for the 50,000-contract limit, the security underlying the option must have most recent six-month trading volume of at least 20,000,000 shares, or most recent six-month trading volume of at least 15,000,000 shares and at least 40,000,000

Position limits are designed to limit the number of options contracts traded on the Exchange in an underlying security that an investor, acting alone or in concert with others directly or indirectly, may control. The purpose of position limits is to address potential manipulative schemes and adverse market impacts surrounding the use of options, such as disrupting the market in the security underlying the options. Accordingly, position limits must balance concerns regarding mitigating potential manipulation and the cost of inhibiting potential hedging activity that investors may use for legitimate economic purposes. To achieve this balance, the Exchange proposes to set the position and exercise limits for the options on the Bitcoin Funds at 25,000 contracts, which limits are already in place for the Bitcoin Funds as traded on other options exchanges and the bitcoin-backed ETPs available for options trading on NYSE American LLC.³³ Capping the position limit at 25,000 contracts, the lowest limit available in options, would address concerns related to manipulation and protection of investors as this number is conservative for the Bitcoin Funds and therefore appropriate given their liquidity. The Exchange believes that the proposed 25,000-contract position limit is conservative for options on the Bitcoin Funds.³⁴

Based on the foregoing, the Exchange believes the proposal to list options on the Bitcoin Funds with positions and exercise limits of 25,000 on the same side, the lowest position limit available in the options industry, is conservative and appropriate given the market capitalization, average daily volume, and high number of outstanding shares for each of the Bitcoin Funds. The proposed position and exercise limits reasonably and appropriately balance the liquidity provisioning in the market against the prevention of manipulation. The Exchange believes these proposed limits are effectively designed to prevent an individual customer or entity from establishing options positions that could be used to manipulate the market of the underlying Bitcoin Funds as well as the Bitcoin

shares currently outstanding. For an option to be eligible for the 75,000-contract limit, the underlying security must have most recent six-month trading volume of at least 40,000,000 shares, or most recent six-month trading volume of at least 30,000,000 shares and at least 120,000,000 shares currently outstanding. For an option to be eligible for the 200,000-contract limit, the underlying security must have most recent six-month trading volume of at least 80,000,000 shares, or most recent six-month trading volume of at least 60,000,000 shares and at least 240,000,000 shares currently outstanding. For an option to be eligible for the 250,000-contract limit, the security underlying the option must have most recent six-month trading volume of at least 100,000,000 shares, or most recent six-month trading volume of at least 75,000,000 shares and at least 300,000,000 shares currently outstanding. The 25,000-contract limit applies to options on underlying securities that do not qualify for a higher contract limit. See Commentary .07(c) to Rule 6.8-O. In addition, Commentary .07(f) to Rule 6.8-O establishes higher position limits for options on certain ETFs.

³³ See proposed 6.8-O, Commentary .07(f) See supra notes 3 and 4 (regarding the IBIT Approval Order and the FBTC and ARKB Approval Order). See also NYSE American Rule 904, Commentary .07(f) (setting 25,000 position limits for the Grayscale Bitcoin Trust (BTC) (symbol: GBTC), the Grayscale Bitcoin Mini Trust (BTC) (symbol: BTC), and the Bitwise Bitcoin ETF (symbol: BITB)).

³⁴ The Exchange may file a subsequent rule change to amend the position and exercise limit for options on any or all the Bitcoin Funds based on additional data regarding trading activity, to continue to balance any concerns regarding manipulation. A higher position limit would allow institutional investors to utilize options on the Bitcoin Funds for prudent risk management purposes.

market.³⁵

As described herein, options on the Bitcoin Funds will trade in the same manner as any other ETF or ETP options on the Exchange, except that the Bitcoin Funds will not be eligible for FLEX options trading. The Exchange Rules that currently apply to the listing and trading of options on the Exchange, including, for example, Rules that govern listing criteria, expiration and exercise prices, minimum increments, margin requirements, customer accounts and trading halt procedures will apply to the listing and trading of Bitcoin Funds on the Exchange in the same manner as they apply to all other ETFs and ETPs that are listed and traded on the Exchange, including the precious metal-backed commodity ETPs already deemed appropriate for options trading on the Exchange. Further, as described above, Exchange Rules regarding position and exercise limits will likewise apply to options on the Bitcoin Funds except that, as proposed, the position and exercise limits will be set at 25,000 on the same side.

The Exchange notes that options on Bitcoin Funds would not be available for trading until The Options Clearing Corporation (“OCC”) represents to the Exchange that it is fully able to clear and settle such options. The Exchange has also analyzed its capacity and represents that it and The Options Price Reporting Authority (“OPRA”) have the necessary systems capacity to handle the additional traffic associated with the listing of options on Bitcoin Funds. The Exchange believes any additional traffic that would be generated from the trading of options on Bitcoin Funds would be manageable. The Exchange represents that Exchange members will not have a capacity issue as a result of this proposed rule change.

The Exchange represents that the same surveillance procedures applicable to all other options currently listed and traded on the Exchange will apply to options on Bitcoin Funds, and that it has the necessary systems capacity to support the new option series. The Exchange’s existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options on ETFs and ETPs, such as (existing) precious metal-backed ETP options, as well as the proposed options on Bitcoin Funds. The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of options on Bitcoin Funds in all trading sessions and to deter and detect violations of Exchange rules. Specifically, the Exchange’s market surveillance staff also conducts surveillances with respect to the Bitcoin Funds and, as appropriate, would review activity in the underlying Funds when conducting surveillances for market abuse or manipulation in the options on each Trust. Additionally, the Exchange is a member of the Intermarket Surveillance Group (“ISG”) under the ISG Agreement. ISG members work together to coordinate surveillance and investigative information sharing in the stock, options, and futures markets. The Exchange will be able to obtain information regarding trading in the shares of the underlying Trusts from Nasdaq, LLC, Cboe Exchange, Inc., and other markets on

³⁵ See Securities Exchange Act Release No. 39489 (December 24, 1997), 63 FR 276 (January 5, 1998) (SR-CBOE-1997-11).

which the Trusts trade through the ISG. In addition, the Exchange has a Regulatory Services Agreement (“RSA”) with the Financial Industry Regulatory Authority (“FINRA”). Pursuant to a multi-party 17d-2 joint plan, all options exchanges allocate regulatory responsibilities to FINRA to conduct certain options-related market surveillances.³⁶ Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on the Bitcoin Funds.

The underlying shares of spot bitcoin ETPs, including the Bitcoin Funds, are also subject to safeguards related to addressing market abuse and manipulation. As the Commission stated in its order approving proposals of several exchanges to list and trade shares of spot bitcoin-based exchange-traded products (“Bitcoin ETP Order”³⁷):

Each Exchange has a comprehensive surveillance-sharing agreement with the CME via their common membership in the Intermarket Surveillance Group. This facilitates the sharing of information that is available to the CME through its surveillance of its markets, including its surveillance of the CME bitcoin futures market.³⁸

Given the consistently high correlation between the CME bitcoin futures market and the spot bitcoin market, as confirmed by the Commission through robust correlation analysis, and given that the “CME’s surveillance can assist in detecting [the impact of fraud or manipulation] on CME bitcoin future prices,” the Commission was able to conclude that such surveillance sharing agreements could reasonably be “expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [Bitcoin ETPs].”³⁹

In light of surveillance measures related to both options and futures as well as the underlying Bitcoin Funds,⁴⁰ the Exchange believes that existing surveillance procedures

³⁶ Section 19(g)(1) of the Act, among other things, requires every SRO registered as a national securities exchange or national securities association to comply with the Act, the rules and regulations thereunder, and the SRO’s own rules, and, absent reasonable justification or excuse, enforce compliance by its members and persons associated with its members. See 15 U.S.C. 78q(d)(1) and 17 CFR 240.17d-2. Section 17(d)(1) of the Act allows the Commission to relieve an SRO of certain responsibilities with respect to members of the SRO who are also members of another SRO. Specifically, Section 17(d)(1) allows the Commission to relieve an SRO of its responsibilities to: (i) receive regulatory reports from such members; (ii) examine such members for compliance with the Act and the rules and regulations thereunder, and the rules of the SRO; or (iii) carry out other specified regulatory responsibilities with respect to such members.

³⁷ See Securities Exchange Act Release No. 99306 (January 10, 2024), 89 FR 3008 (January 17, 2024) (File Nos. SR-NYSEArca-2021-90; SR-NYSEArca-2023-44; SR-NYSEArca-2023-58; SR-NASDAQ-2023-016; SR-NASDAQ-2023-019; SR-CboeBZX-2023-028; SR-CboeBZX-2023-038; SR-CboeBZX-2023-040; SR-CboeBZX-2023-042; SRCboeBZX-2023-044; and SR-CboeBZX-2023-072) (Order Granting Accelerated Approval of Proposed Rule Changes, as Modified by Amendments Thereto, to List and Trade Bitcoin-Based Commodity-Based Trust Shares and Trust Units) (“Bitcoin ETP Order”).

³⁸ See Bitcoin ETP Order, 89 FR at 3009.

³⁹ See Bitcoin ETP Order, 89 FR at 3010-11.

⁴⁰ See Amendment No. 1 to Proposed Rule Change to List and Trade Shares of the iShares Bitcoin Trust under Nasdaq Rule 5711(d), Commodity-Based Trust Shares (SR-NASDAQ-2023-016), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-nasdaq-2023-016/srnasdaq2023016-357659-883042.pdf>;

are designed to deter and detect possible manipulative behavior which might potentially arise from listing and trading the proposed options on the Bitcoin Funds.

Finally, quotation and last sale information for ETFs is available via the Consolidated Tape Association (“CTA”) high speed line. Quotation and last sale information for such securities is also available from the exchange on which such securities are listed. Quotation and last sale information for options on Bitcoin Funds will be available via OPRA and major market data vendors.

The Exchange believes that offering options on the Bitcoin Funds will benefit investors by providing them with an additional, relatively lower cost investing tool to gain exposure to the price of Bitcoin and hedging vehicle to meet their investment needs in connection with Bitcoin-related products and positions. The Exchange expects investors will transact in options on Bitcoin Funds in the unregulated over-the-counter (“OTC”) options market,⁴¹ but may prefer to trade such options in a listed environment to receive the benefits of trading listed options, including (1) enhanced efficiency in initiating and closing out position; (2) increased market transparency; and (3) heightened contra-party creditworthiness due to the role of OCC as issuer and guarantor of all listed options. The Exchange believes that listing options on the Bitcoin Funds may cause investors to bring this liquidity to the Exchange, would increase market transparency and enhance the process of price discovery conducted on the Exchange through increased order flow. The Exchange notes that the ETPs that hold precious metal commodities on which the Exchange may already list and trade options are trusts structured in substantially the same manner as Bitcoin Funds and essentially offer the same objectives and benefits to investors, just with respect to different assets. The Exchange notes that it has not identified any issues with the continued listing and trading of options on any ETFs or ETPs that hold commodities (i.e., precious metals) that it currently lists and trades on the Exchange.

(b) Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁴² in general and furthers the objectives of Section 6(b)(5) of the Act⁴³ in particular, in that it is designed to promote just and equitable principles of trade, to remove

Amendment No. 5 to Proposed Rule Change to List and Trade Shares of the ARK 21Shares Bitcoin ETF under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-028), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-028/srcboebzx2023028-358679-884202.pdf>; ; and Amendment No. 3 to Proposed Rule Change to List and Trade Shares of the Fidelity Wise Origin Bitcoin Fund under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-044), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-044/srcboebzx2023044-358759-884163.pdf>.

⁴¹ The Exchange understands from customers that investors have historically transacted in options on ETFs in the OTC options market if such options were not available for trading in a listed environment.

⁴² 15 U.S.C. 78f(b).

⁴³ 15 U.S.C. 78f(b)(5).

impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, to protect investors and the public interest.

In particular, the Exchange believes that the proposal to list and trade options on the Bitcoin Funds will remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors because offering options on the Bitcoin Funds will provide investors with an opportunity to realize the benefits of utilizing options on a Bitcoin Fund, including cost efficiencies and increased hedging strategies.

The Exchange believes that offering Bitcoin Fund options will benefit investors by providing them with a relatively lower-cost risk management tool, which will allow them to manage their positions and associated risk in their portfolios more easily in connection with exposure to the price of Bitcoin and with Bitcoin-related products and positions. Additionally, the Exchange's offering of Bitcoin Fund options will provide investors with the ability to transact in such options in a listed market environment as opposed to in the unregulated OTC market, which would increase market transparency and enhance the process of price discovery conducted on the Exchange through increased order flow to the benefit of all investors. The Exchange also notes that it already lists options on other commodity-based ETPs,⁴⁴ which, as described above, are trusts structured in substantially the same manner as the Bitcoin Funds and essentially offer the same objectives and benefits to investors, just with respect to a different commodity (i.e., Bitcoin rather than precious metals) and for which the Exchange has not identified any issues with the continued listing and trading of commodity-backed ETP options it currently lists for trading.

The Exchange also believes the proposed rule change will remove impediments to and perfect the mechanism of a free and open market and a national market system, because it is consistent with current Exchange Rules previously filed with the Commission. Options on the Bitcoin Funds satisfy the initial listing standards and continued listing standards currently in the Exchange Rules applicable to options on all ETFs and ETPs, including ETPs that hold other commodities already deemed appropriate for options trading on the Exchange. Additionally, as demonstrated above, each Bitcoin Fund is characterized by a substantial number of shares that are widely held and actively traded. Bitcoin Fund options will trade in the same manner as any other ETF or ETP options — the same Exchange Rules that currently govern the listing and trading of options, including permissible expirations, strike prices, minimum increments, and margin requirements, will govern the listing and trading of options on the Bitcoin Funds in the same manner.

The Exchange believes the proposed rule change to exclude the Bitcoin Funds from being eligible for trading as FLEX options is consistent with the Act, because it will permit the Exchange to continue to participate in ongoing discussions with the Commission regarding appropriate position limits for options on the Bitcoin Funds.⁴⁵

⁴⁴ See Rule 5.3-O(g).

⁴⁵ The Exchange will submit a separate rule filing that would permit the Exchange to authorize for trading

The proposed position and exercise limit for options on the Bitcoin Funds is 25,000 contracts. These position and exercise limits are the lowest position and exercise limits available in the options industry, are extremely conservative and more than appropriate given the Bitcoin Funds' market capitalization, average daily volume, number of beneficial holders, and high number of outstanding shares. The proposed position and exercise limits are consistent with the Act as they addresses concerns related to manipulation and protection of investors because the position and exercise limits are extremely conservative and more than appropriate given the Bitcoin Funds are actively traded.

The Exchange also believes the proposed rule change to Rule 5.32-O, to make clear that options on the Bitcoin Funds are not eligible for FLEX trading, will remove impediments to and perfect the mechanism of a free and open market and a national market system because it adds clarity and transparency to Exchange Rules making them easier to navigate and understand to the benefit of investors and the public interest.

The Exchange represents that it has the necessary systems capacity to support the new Bitcoin Fund options. The Exchange believes that its existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options, including Bitcoin Fund options. The Exchange's existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options on ETFs and ETPs, such as (existing) precious metal-commodity backed ETP options as well as the proposed options on Bitcoin Funds. The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of options on Bitcoin Funds in all trading sessions and to deter and detect violations of Exchange rules.

Specifically, the Exchange's market surveillance staff also conducts surveillances with respect to the Bitcoin Funds and, as appropriate, would review activity in the underlying Funds when conducting surveillances for market abuse or manipulation in the options on each Trust. Additionally, the Exchange is a member of the Intermarket Surveillance Group ("ISG") under the ISG Agreement. ISG members work together to coordinate surveillance and investigative information sharing in the stock, options, and futures markets. The Exchange will be able to obtain information regarding trading in the shares of the underlying Trusts from Nasdaq, LLC, Cboe Exchange, Inc., and other markets on which the Trusts trade through the ISG. In addition, the Exchange is a party to an RSA with FINRA and pursuant to a multi-party 17d-2 joint plan, all options exchanges allocate regulatory responsibilities to FINRA to conduct certain options-related market surveillances. Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on the Bitcoin Funds.

The underlying shares of spot bitcoin ETPs, including the Bitcoin Funds, are also subject to safeguards related to addressing market abuse and manipulation. As the Commission

FLEX options on the Bitcoin Funds (which filing may propose changes to existing FLEX option position limits for such options if appropriate).

stated in its order approving proposals of several exchanges to list and trade shares of spot bitcoin-based ETPs, “[e]ach Exchange has a comprehensive surveillance-sharing agreement with the CME via their common membership in the Intermarket Surveillance Group. This facilitates the sharing of information that is available to the CME through its surveillance of its markets, including its surveillance of the CME bitcoin futures market.”⁴⁶ Given the consistently high correlation between the CME bitcoin futures market and the spot bitcoin market, as confirmed by the Commission through robust correlation analysis, and given that the “CME’s surveillance can assist in detecting [the impact of fraud or manipulation] on CME bitcoin future prices,” the Commission was able to conclude that such surveillance sharing agreements could reasonably be “expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [Bitcoin ETPs].”⁴⁷ In light of surveillance measures related to both options and futures as well as the underlying Bitcoin Funds,⁴⁸ the Exchange believes that existing surveillance procedures are designed to deter and detect possible manipulative behavior which might potentially arise from listing and trading the proposed options on the Bitcoin Funds. Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on Bitcoin ETPs.

4. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Intramarket Competition: The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act as options on the Bitcoin Funds would need to satisfy the initial listing standards set forth in the Exchange Rules in the same manner as any other option on an ETF before the Exchange could list these options. Additionally, Bitcoin Fund options will be equally available to all market participants who wish to trade such options. The Exchange Rules currently applicable to the listing and trading of options on ETFs on the Exchange will apply in the same manner to the listing and trading of all options on the Bitcoin Funds. Also, and as stated above, the Exchange already lists options on other commodity-based ETPs.⁴⁹

⁴⁶ See Bitcoin ETP Order, 89 FR at 3009.

⁴⁷ See Bitcoin ETP Order, 89 FR at 3010-11.

⁴⁸ See Amendment No. 1 to Proposed Rule Change to List and Trade Shares of the iShares Bitcoin Trust under Nasdaq Rule 5711(d), Commodity-Based Trust Shares (SR-NASDAQ-2023-016), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-nasdaq-2023-016/srnasdaq2023016-357659-883042.pdf>; Amendment No. 5 to Proposed Rule Change to List and Trade Shares of the ARK 21Shares Bitcoin ETF under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-028), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-028/srcboebzx2023028-358679-884202.pdf>; ; and Amendment No. 3 to Proposed Rule Change to List and Trade Shares of the Fidelity Wise Origin Bitcoin Fund under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-044), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-044/srcboebzx2023044-358759-884163.pdf>.

⁴⁹ Rule 5.3-O(g) permits the listing and trading of options on shares of the following trusts: SPDR Gold Trust,

Intermarket Competition: The Exchange does not believe that the proposal to list and trade options on Bitcoin Funds will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the extent that the advent of Bitcoin Fund options trading on the Exchange may make the Exchange a more attractive marketplace to market participants at other exchanges, such market participants are free to elect to become market participants on the Exchange. As noted herein, this is a competitive filing as the Commission recently approved the listing and trading of options on the Bitcoin Funds on other options exchanges.⁵⁰

Additionally, other options exchanges are free to amend their listing rules, as applicable, to permit them to list and trade options on the Bitcoin Funds. The Exchange notes that listing and trading Bitcoin Fund options on the Exchange will subject such options to transparent exchange-based rules as well as price discovery and liquidity, as opposed to alternatively trading such options in the OTC market.

The Exchange believes that the proposed rule change may relieve any burden on, or otherwise promote, competition as it is designed to increase competition for order flow on the Exchange in a manner that is beneficial to investors by providing them with a lower-cost option to hedge their investment portfolios. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues that offer similar products. Ultimately, the Exchange believes that offering Bitcoin Fund options for trading on the Exchange will promote competition by providing investors with an additional, relatively low-cost means to hedge their portfolios and meet their investment needs in connection with Bitcoin prices and Bitcoin-related products and positions on a listed options exchange.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

The Exchange does not consent at this time to an extension of any time period for Commission action.

the iShares COMEX Gold Trust, the iShares Silver Trust, the ETFS Silver Trust, the ETFS Gold Trust, ETFS Palladium Trust, or ETFS Platinum Trust. See Rule 5.3-O(g)(iv)-(vi) and (viii)-(ix).

⁵⁰ See also supra notes 3 and 4 (regarding the IBIT Approval Order and the FBTC and ARKB Approval Order).

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange believes that the proposal qualifies for immediate effectiveness upon filing as a “non-controversial” rule change in accordance with Section 19(b)(3)(A) of the Act⁵¹ and Rule 19b-4(f)(6) thereunder.⁵²

The Exchange asserts that the proposed rule change (i) will not significantly affect the protection of investors or the public interest, (ii) will not impose any significant burden on competition, and (iii) by its terms, will not become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest. In addition, the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing, or such shorter time as the Commission may designate.

First, the Exchange believes the proposal does not impose any significant burden on competition as it would align the Exchange’s rules with that of its competitors.⁵³ The Exchange believes that this proposed rule change, which is essential for competitive purposes and to promote a free and open market for the benefit of investors, does not raise any new, unique or substantive issues not previously considered by the Commission. Accordingly, the Exchange believes that no regulatory purpose would be served by delaying implementation of the proposal.

The Exchange believes the proposal would benefit investors before options on the Bitcoin Funds would permit hedging, and allow for more liquidity, better price efficiency, and less volatility with respect to the underlying Funds. Further, permitting the listing of such options would enhance the transparency and efficiency of markets in these and correlated products. Investors should not be denied the hedging and other investment protections and benefits that options offer merely because their investment strategies happen to involve one Bitcoin Fund versus another.

In view of the immediate nature of the relief requested, the Exchange respectfully requests that the proposed rule change become operative immediately. The Exchange requests that the Commission waive the five business day notice of the Exchange’s intent to file this proposed rule change, as well as the 30-day operative delay, so that this proposed rule change may become effective and operative upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act⁵⁴ and subparagraph (f)(6) of Rule 19b4⁵⁵ thereunder. The Exchange believes that waiver of both the operative delay and the

⁵¹ 15 U.S.C. 78s(b)(3)(A).

⁵² 17 CFR 240.19b-4(f)(6).

⁵³ See supra notes 3 and 4 (regarding the IBIT Approval Order and the FBTC and ARKB Approval Order).

⁵⁴ 15 U.S.C. 78s(b)(3)(A).

⁵⁵ 17 CFR 240.19b-4(f)(6).

requirement to provide five-days' written notice of the proposed rule change would be consistent with the protection of investors and the public interest because waiver of these periods will ensure fair competition among the exchanges as it allow the Exchange to begin trading options on the Bitcoin Funds without delay.

For the foregoing reasons, the rule filing qualifies for immediate effectiveness as a “non-controversial” rule change under Rule 19b-4(f)(6).⁵⁶ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

The proposed rule change is based on the IBIT Approval Order and the FBTC and ARKB Approval Order.⁵⁷

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34- ; File No. SR-NYSEARCA-2024-100)

[Date]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to List and Trade Option Contracts on the iShares Bitcoin Trust, the Fidelity Wise Origin Bitcoin Fund, and the ARK21Shares Bitcoin ETF

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on November 20, 2024, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade option contracts on the iShares Bitcoin Trust, the Fidelity Wise Origin Bitcoin Fund, and the ARK21Shares Bitcoin ETF. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 5.3-O (Criteria for Underlying Securities), Rule 5.4-O (Withdrawal of Approval of Underlying Securities), Rule 5.32-O (Terms of FLEX Options), and Rule 6.8-O (Position Limits,) to allow the Exchange to list and trade options on the following exchange-traded products: the iShares Bitcoin Trust (“iShares Bitcoin” or “IBIT”), the Fidelity Wise Origin Bitcoin Fund (“Fidelity Wise” or “FBTC”), and the ARK21Shares Bitcoin ETF (“ARK21” or “ARKB”) (collectively, the “Bitcoin Funds” or “Funds”).

The Exchange notes that this is a competitive filing as the Commission recently approved rule proposals by Nasdaq ISE, LLC (“ISE”) and Cboe Exchange, Inc. (“Cboe”) to allow the listing and trading of options on IBIT⁴ and on FBTC and ARKB, respectively.⁵ The Exchange notes that bitcoin-backed ETPs are already approved for options trading on its affiliated exchange, NYSE American LLC.⁶ As discussed below, the Exchange believes options on the

⁴ See Securities Exchange Act Release No. 101128 (September 20, 2024), 89 FR 78942 (September 26, 2024) (SR-ISE-2024-03) (Notice of Filing of Amendment Nos. 4 and 5 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment Nos. 1, 4, and 5, to Permit the Listing and Trading of Options on the iShares Bitcoin Trust) (“IBIT Approval Order”).

⁵ See Securities Exchange Act Release No. 101387 (October 18, 2024), 89 FR 84948 (October 24, 2024) (SE-CBOE-2024-035) (Notice of Filing of Amendment Nos. 2 and 3 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment Nos. 2 and 3, To Permit the Listing and Trading of Options on Bitcoin Exchange-Traded Funds) (“FBTC and ARKB Approval Order”).

⁶ See Securities Exchange Act Release No. 101386 (October 18, 2024), 89 FR 84960 (October 24, 2024) (SR-NYSEAMER-2024-49) (Order approving the listing and trading of options on shares of the Grayscale Bitcoin Trust (BTC) (symbol: GBTC), the Grayscale Bitcoin Mini Trust (BTC) (symbol: BTC), and the Bitwise Bitcoin ETF (symbol: BITB)) (the “American Bitcoin Options Approval Order”). See also NYSE American Rule 915, Commentary .10(a). Taken together with the IBIT Approval Order and the FBTC and ARKB Approval Order, the Bitcoin Approval Order, further illustrates that this proposal does not raise any

Bitcoin Funds would permit hedging, and allow for more liquidity, better price efficiency, and less volatility with respect to the underlying Funds. Further, permitting the listing of such options would enhance the transparency and efficiency of markets in these and correlated products.

Rule 5.3-O provides that, subject to certain other criteria set forth in the Rule,⁷ securities deemed appropriate for options trading include Exchange-Traded Fund Shares (or ETFs) that represent certain types of interests⁸ and exchange-traded products (“ETPs”) structured as trusts that hold precious metals (which are deemed commodities).⁹ Like ETPs backed by precious

new or novel issues not previously considered by the Commission.

⁷ To be eligible for options trading, ETFs and ETPs must satisfy the initial listing criteria set forth in Rule 5.3-O(g)(1) through (2).

⁸ Rule 5.3-O(g) permits options trading on ETFs that are traded on a national securities exchange and are defined as an “NMS stock” in Rule 600(b)(55) of Regulation NMS, that represent interests in registered investment companies (or series thereof) organized as open-end management investment companies, unit investment trusts or similar entities that hold portfolios of securities and/or financial instruments including, but not limited to, stock index futures contracts, options on futures, options on securities and indexes, equity caps, collars and floors, swap agreements, forward contracts, repurchase agreements and reverse purchase agreements (the “Financial Instruments”), and money market instruments, including, but not limited to, U.S. government securities and repurchase agreements (the “Money Market Instruments”) comprising or otherwise based on or representing investments in indexes or portfolios of securities and/or Financial Instruments and Money Market Instruments (or that hold securities in one or more other registered investment companies that themselves hold such portfolios of securities and/or Financial Instruments and Money Market Instruments); interests in a trust or similar entity that holds a specified non-U.S. currency deposited with the trust or similar entity when aggregated in some specified minimum number may be surrendered to the trust by the beneficial owner to receive the specified non-U.S. currency and pays the beneficial owner interest and other distributions on deposited non-U.S. currency, if any, declared and paid by the trust (“Currency Trust Shares”); commodity pool interests principally engaged, directly or indirectly, in holding and/or managing portfolios or baskets of securities, commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and/or non-U.S. currency (“Commodity Pool Units”); or represents an interest in a registered investment company (“Investment Company”) organized as an open-end management investment company or similar entity, that invests in a portfolio of securities selected by the Investment Company’s investment adviser consistent with the Investment Company’s investment objectives and policies, which is issued in a specified aggregate minimum number in return for a deposit of a specified portfolio of securities and/or a cash amount with a value equal to the next determined net asset value (“NAV”), and when aggregated in the same specified minimum number, may be redeemed at a holder’s request, which holder will be paid a specified portfolio of securities and/or cash with a value equal to the next determined NAV (“Managed Fund Share”); provided that all of the conditions listed in Rules 5.3-O and 5.4-O are met. See Rule 5.3-O(g)(i)-(iii) and (vii)

⁹ Rule 5.3-O(g) permits the listing and trading of options on shares of the following trusts: SPDR Gold Trust, the iShares COMEX Gold Trust, the iShares Silver Trust, the ETFS Silver Trust, the ETFS Gold Trust, ETFS Palladium Trust, or ETFS Platinum Trust. See Rule 5.3-O(g)(iv)-(vi) and (viii)-(ix).

metals (i.e., commodities), the Exchange proposes to allow options trading on the Bitcoin Funds that hold Bitcoin -- which is also deemed a commodity.¹⁰

The Bitcoin Funds are structured as trusts that hold bitcoin. Like ETFs and ETPs currently deemed appropriate for options trading, the investment objective of each Bitcoin Fund trust is for its shares to reflect the performance of Bitcoin (less the expenses of the trust's operations), offering investors an opportunity to gain exposure to Bitcoin without the complexities of Bitcoin delivery. Each Bitcoin Fund's shares represent units of fractional undivided beneficial interest in the trust, the assets of which consist principally of Bitcoin and are designed to track Bitcoin or the performance of the price of Bitcoin and offer access to the Bitcoin market.¹¹ The Bitcoin Funds provide investors with cost-efficient alternatives that allow a level of participation in the Bitcoin market through the securities market.

The Exchange believes each Bitcoin Fund satisfies the Exchange's initial listing standards set forth in Rule 5.3-O(a).¹² The Exchange notes that the Bitcoin Funds also satisfy the listing standard applied to ETFs traded on the Exchange that they be available for creation and redemption each business day as set forth in Rule 5.3-O(g)(1)(B).¹³

First, each of the Bitcoin Funds satisfy the criteria and guidelines set forth in Rule 5.3-O. Pursuant to Rule 5.3-O(b), a security on which options may be listed and traded on the Exchange

¹⁰ See proposed Rule 5.3-O, Commentary .01 (The Exchange may list and trade options on shares of IBIT, FBTC, and ARKB, pursuant to Rules 5.3-O and 5.4-O).

¹¹ Each trust may include minimal cash.

¹² Rule 5.3-O(a) provides for guidelines to be used by the Exchange when evaluating potential underlying securities for Exchange option transactions.

¹³ Rule 5.3-O(g)(1)(B) requires that ETFs must be available for creation or redemption each business day from or through the issuer in cash or in kind at a price related to net asset value, and the issuer must be obligated to issue ETFs in a specified aggregate number even if some or all of the investment assets required to be deposited have not been received by the issuer, subject to the condition that the person obligated to deposit the investments has undertaken to deliver the investment assets as soon as possible and such undertaking is secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the issuer, as provided in the respective prospectus.

must be duly registered (with the Commission) and be an NMS stock (as defined in Rule 600 of Regulation NMS under the Act) and be characterized by a substantial number of outstanding shares that are widely held and actively traded.¹⁴ Each of the Bitcoin Funds is an NMS Stock as defined in Rule 600 of Regulation NMS under the Act.¹⁵ The Exchange believes each Bitcoin Fund is characterized by a substantial number of outstanding shares that are widely held and actively traded.

The Bitcoin Funds had the following number of shares outstanding:

Bitcoin Fund	Shares Outstanding
IBIT (as of 8/12/24)	611,040,000
FBTC (as of 8/7/24)	201,100,100
ARKB (as of 8/7/24)	45,495,000

As shown above, each of the Bitcoin Funds had significantly more than 7,000,000 shares outstanding, which is the minimum number of shares of a corporate stock that the Exchange generally requires to list options on that stock pursuant to the Exchange's rules. The Exchange believes this demonstrates that each Bitcoin Fund is characterized by a substantial number of outstanding shares.

Further, the below table contains information regarding the number of beneficial holders of the Bitcoin Funds.

¹⁴ The criteria and guidelines for a security to be considered widely held and actively traded are set forth in Rule 5.3-O(a), subject to exceptions.

¹⁵ An "NMS stock" means any NMS security other than an option, and an "NMS security" means any security or class of securities for which transaction reports are collected, processed, and made available pursuant to an effective transaction reporting plan (or an effective national market system plan for reporting transaction in listed options). See 17 CFR § 242.600(b)(64) (definition of "NMS security") and (65) (definition of "NMS stock").

Bitcoin Fund	Number of Beneficial Holders
IBIT	193,956 (as of 5/22/23)
FBTC	279,656 (as of 6/27/24)
ARKB	69,425 (as of 6/26/24)

Each Bitcoin Fund has significantly more than 2,000 beneficial holders, which is the minimum number of holders the Exchange generally requires for corporate stock in order to list options on that stock pursuant to the Exchange’s rules. Therefore, the Exchange believes the shares of each Bitcoin Fund are widely held.

In addition, the Exchange believes the shares of each Bitcoin Fund are actively traded. The total trading volume (by shares and notional) for these funds since they began trading and the average daily volume (“ADV”) over the 30-day period of July 9 through August 7, 2024, was as follows:

Bitcoin Fund	Trading Volume (Shares)	Trading Volume (Notional \$)	ADV (Shares)
IBIT (as of 5/13/24)	34,825,921	1,246,060,738	26,000,000
FBTC (as of 8/7/24)	1,112,861,581	250,354,755	6,014,335
ARKB (as of 8/7/24)	279,360,739	90,484,307	1,893,335

As demonstrated above, even though these Bitcoin Funds have been trading for less than one year, the trading volume for each is substantially higher than 2,400,000 shares, which is the

minimum 12-month volume the Exchange generally requires for a security in order to list options on that security. The Exchange believes this data demonstrates each Bitcoin Fund is characterized by a substantial number of outstanding shares that are actively traded.

In addition to satisfying the Exchange's initial listing standards, options on Bitcoin Funds will be subject to the Exchange's continued listing standards as set forth in Rule 5.4-O.¹⁶

Pursuant to Rule 5.4-O(b)(5), the Exchange will not open for trading any additional series of option contracts covering a fund traded on the Exchange if such fund ceases to be an "NMS stock" or the fund is halted from trading on its primary market.¹⁷ Additionally, options on funds traded on the Exchange may be subject to the suspension of opening transactions as follows: (1) the fund no longer meets the terms of Rule 5.4-O(b)(1)-(4); (2) following the initial twelve-month period beginning upon the commencement of trading of the fund, there are fewer than 50 record and/or beneficial holders of the fund for 30 or more consecutive trading days; (3) the value of the underlying commodity is no longer calculated or available; or (4) such other event occurs or condition exists that in the opinion of the Exchange makes further dealing on the Exchange inadvisable.

Options on each Bitcoin Fund will be physically settled contracts with American-style exercise.¹⁸ Consistent with Rule 6.4-O, which governs the opening of options series on a specific underlying security (including ETFs and ETPs), the Exchange will open at least one expiration

¹⁶ The Exchange proposes to adopt Commentary .02 to Rule 5.4-O to specify that for purposes of the continued listing standards set forth in Rule 5.3-O(k), the Bitcoin Funds will be deemed "Exchange-Traded Fund Shares." See proposed Commentary .02 to Rule 5.4-O.

¹⁷ See Rule 5.4-O(k).

¹⁸ See Rule 6.5-O (Rights and Obligations of Holders and Writers), which provides that the rights and obligations of holders and writers of option contracts of any class of options dealt in on the Exchange shall be as set forth in the Rules of the Clearing Corporation. See also OCC Rules, Chapter VIII, which governs exercise and assignment, and Chapter IX, which governs the discharge of delivery and payment obligations arising out of the exercise of physically settled stock option contracts. OCC Rules can be located at: https://www.theocc.com/getmedia/9d3854cd-b782-450f-bcf7-33169b0576ce/occ_rules.pdf.

month for options on each Bitcoin Fund¹⁹ at the commencement of trading on the Exchange and may also list series of options on Bitcoin Funds for trading on a weekly,²⁰ monthly,²¹ or quarterly²² basis. The Exchange may also list long-term equity option series (“LEAPS”) that expire from twelve to thirty-nine months from the time they are listed.²³

Pursuant to Rule 6.4-O, Commentary .05(a), which governs strike prices of series of options on ETFs, the interval between strike prices of series of options on Bitcoin Funds will be \$1 or greater when the strike price is \$200 or less and \$5 or greater where the strike price is over \$200.²⁴ Additionally, the Exchange may list series of options pursuant to the \$1 Strike Price Interval Program,²⁵ the \$0.50 Strike Program,²⁶ the \$2.50 Strike Price Program,²⁷ and the \$5 Strike Program.²⁸ Pursuant to Rule 6.72-O, where the price of a series of a Bitcoin Fund option is

¹⁹ See Rule 6.4-O(d). The monthly expirations are subject to certain listing criteria for underlying securities described within Rule 5.3-O. Monthly listings expire the third Friday of the month. The term “expiration date” (unless separately defined elsewhere in the OCC By-Laws), when used in respect of an option contract (subject to certain exceptions), means the third Friday of the expiration month of such option contract, or if such Friday is a day on which the exchange on which such option is listed is not open for business, the preceding day on which such exchange is open for business. See OCC By-Laws Article I, Section 1. Pursuant to Rule 903(d), additional series of options of the same class may be opened for trading on the Exchange when the Exchange deems it necessary to maintain an orderly market, to meet customer demand or when the market price of the underlying stock moves more than five strike prices from the initial exercise price or prices. New series of options on an individual stock may be added until the beginning of the month in which the options contract will expire. Due to unusual market conditions, the Exchange, in its discretion, may add a new series of options on an individual stock until the close of trading on the business day prior to expiration.

²⁰ See Rule 6.4-O, Commentary .07.

²¹ See Rule 6.4-O, Commentary .09.

²² See Rule 6.4-O, Commentary .08.

²³ See Rule 6.4-O(d).

²⁴ The Exchange notes that for options listed pursuant to the Short Term Option Series Program, the Monthly Options Series Program, and the Quarterly Options Series Program, Rule 6.4-O, Commentary .07 through .09, specifically set forth intervals between strike prices on Quarterly Options Series, Short Term Option Series, and Monthly Options Series, respectively.

²⁵ See Rule 6.4-O, Commentary .04.

²⁶ See Rule 6.4-O, Commentary .13.

²⁷ See Rule 6.4-O, Commentary .03.

²⁸ See Rule 6.4-O, Commentary .10.

less than \$3.00, the minimum increment will be \$0.05, and where the price is \$3.00 or higher, the minimum increment will be \$0.10.²⁹ Any and all new series of Bitcoin Fund options that the Exchange lists will be consistent and comply with the expirations, strike prices, and minimum increments set forth in Rules 6.4-O and 6.72-O, as applicable. Further, the Exchange notes that Rule 4.16-O, which governs margin requirements applicable to the trading of all options on the Exchange, including options on ETFs and ETPs, will also apply to the trading of Bitcoin Fund options.

Rule 5.32(f)(1) permits the Exchange to authorize for trading a FLEX option class on any equity security if it may authorize for trading a non-FLEX option class on that equity security pursuant to Rule 5.3-O.³⁰ At this time, the Exchange is not proposing to permit Bitcoin Fund options to trade as FLEX options.³¹ The Exchange therefore proposes to modify Rule 5.32(f)(1) to specify this exception, which will add clarity and transparency to Exchange Rules.³²

Position and Exercise Limits

Position and exercise limits for options, including options on Bitcoin Funds, are determined pursuant to Rules 6.8-O and 6.9-O, respectively. Position and exercise limits for options vary according to the number of outstanding shares and the trading volumes of the underlying security over the past six months, where the largest in capitalization and the most

²⁹ If options on a Bitcoin Fund are eligible to participate in the Penny Interval Program, the minimum increment of \$0.01 below \$3.00 and \$0.50 above \$3.00 would apply. See Rule 6.4-O(a)(3). See also Rule 6.72A-O (which describes the requirements for the Penny Interval Program).

³⁰ See Rule 5.32-O(f)(1). See generally Section 4 (Flexible Exchange (“FLEX”) Options).

³¹ The Exchange will continue ongoing discussions with the Commission regarding appropriate position limits for the Bitcoin Funds and plans to submit a separate rule filing that would permit the Exchange to authorize for trading FLEX options on the Funds (which filing may propose changes to existing FLEX option position limits for such options if appropriate).

³² See proposed Rule 5.32(f)(1) (providing, in relevant part, that the Exchange may approve and open for trading any FLEX Equity Options series on any equity security that is eligible for Non-FLEX Options trading under Rule 5.3-O “except those set forth in Commentary .01 to Rule 5.3-O,” i.e., the Bitcoin Funds).

frequently traded funds have an option position and exercise limit of 250,000 contracts (with adjustments for splits, re-capitalizations, etc.) on the same side of the market; and smaller capitalization funds have position and exercise limits of 200,000, 75,000, 50,000 or 25,000 contracts (with adjustments for splits, re-capitalizations, etc.) on the same side of the market.³³

Position limits are designed to limit the number of options contracts traded on the Exchange in an underlying security that an investor, acting alone or in concert with others directly or indirectly, may control. The purpose of position limits is to address potential manipulative schemes and adverse market impacts surrounding the use of options, such as disrupting the market in the security underlying the options. Accordingly, position limits must balance concerns regarding mitigating potential manipulation and the cost of inhibiting potential hedging activity that investors may use for legitimate economic purposes. To achieve this balance, the Exchange proposes to set the position and exercise limits for the options on the Bitcoin Funds at 25,000 contracts, which limits are already in place for the Bitcoin Funds as traded on other options exchanges and the bitcoin-backed ETPs available for options trading on NYSE American LLC.³⁴ Capping the position limit at 25,000 contracts, the lowest limit available

³³ See Commentary .06(a)-(e) to Rule 6.8-O. For an option to be eligible for the 50,000-contract limit, the security underlying the option must have most recent six-month trading volume of at least 20,000,000 shares, or most recent six-month trading volume of at least 15,000,000 shares and at least 40,000,000 shares currently outstanding. For an option to be eligible for the 75,000-contract limit, the underlying security must have most recent six-month trading volume of at least 40,000,000 shares, or most recent six-month trading volume of at least 30,000,000 shares and at least 120,000,000 shares currently outstanding. For an option to be eligible for the 200,000-contract limit, the underlying security must have most recent six-month trading volume of at least 80,000,000 shares, or most recent six-month trading volume of at least 60,000,000 shares and at least 240,000,000 shares currently outstanding. For an option to be eligible for the 250,000-contract limit, the security underlying the option must have most recent six-month trading volume of at least 100,000,000 shares, or most recent six-month trading volume of at least 75,000,000 shares and at least 300,000,000 shares currently outstanding. The 25,000-contract limit applies to options on underlying securities that do not qualify for a higher contract limit. See Commentary .07(c) to Rule 6.8-O. In addition, Commentary .07(f) to Rule 6.8-O establishes higher position limits for options on certain ETFs.

³⁴ See proposed 6.8-O, Commentary .07(f) See supra notes 4 and 5 (regarding the IBIT Approval Order and the FBTC and ARKB Approval Order). See also NYSE American Rule 904, Commentary .07(f) (setting 25,000 position limits for the Grayscale Bitcoin Trust (BTC) (symbol: GBTC), the Grayscale Bitcoin Mini Trust (BTC) (symbol: BTC), and the Bitwise Bitcoin ETF (symbol: BITB)).

in options, would address concerns related to manipulation and protection of investors as this number is conservative for the Bitcoin Funds and therefore appropriate given their liquidity. The Exchange believes that the proposed 25,000-contract position limit is conservative for options on the Bitcoin Funds.³⁵

Based on the foregoing, the Exchange believes the proposal to list options on the Bitcoin Funds with positions and exercise limits of 25,000 on the same side, the lowest position limit available in the options industry, is conservative and appropriate given the market capitalization, average daily volume, and high number of outstanding shares for each of the Bitcoin Funds. The proposed position and exercise limits reasonably and appropriately balance the liquidity provisioning in the market against the prevention of manipulation. The Exchange believes these proposed limits are effectively designed to prevent an individual customer or entity from establishing options positions that could be used to manipulate the market of the underlying Bitcoin Funds as well as the Bitcoin market.³⁶

As described herein, options on the Bitcoin Funds will trade in the same manner as any other ETF or ETP options on the Exchange, except that the Bitcoin Funds will not be eligible for FLEX options trading. The Exchange Rules that currently apply to the listing and trading of options on the Exchange, including, for example, Rules that govern listing criteria, expiration and exercise prices, minimum increments, margin requirements, customer accounts and trading halt procedures will apply to the listing and trading of Bitcoin Funds on the Exchange in the same manner as they apply to all other ETFs and ETPs that are listed and traded on the

³⁵ The Exchange may file a subsequent rule change to amend the position and exercise limit for options on any or all the Bitcoin Funds based on additional data regarding trading activity, to continue to balance any concerns regarding manipulation. A higher position limit would allow institutional investors to utilize options on the Bitcoin Funds for prudent risk management purposes.

³⁶ See Securities Exchange Act Release No. 39489 (December 24, 1997), 63 FR 276 (January 5, 1998) (SR-CBOE-1997-11).

Exchange, including the precious metal-backed commodity ETPs already deemed appropriate for options trading on the Exchange. Further, as described above, Exchange Rules regarding position and exercise limits will likewise apply to options on the Bitcoin Funds except that, as proposed, the position and exercise limits will be set at 25,000 on the same side.

The Exchange notes that options on Bitcoin Funds would not be available for trading until The Options Clearing Corporation (“OCC”) represents to the Exchange that it is fully able to clear and settle such options. The Exchange has also analyzed its capacity and represents that it and The Options Price Reporting Authority (“OPRA”) have the necessary systems capacity to handle the additional traffic associated with the listing of options on Bitcoin Funds. The Exchange believes any additional traffic that would be generated from the trading of options on Bitcoin Funds would be manageable. The Exchange represents that Exchange members will not have a capacity issue as a result of this proposed rule change.

The Exchange represents that the same surveillance procedures applicable to all other options currently listed and traded on the Exchange will apply to options on Bitcoin Funds, and that it has the necessary systems capacity to support the new option series. The Exchange’s existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options on ETFs and ETPs, such as (existing) precious metal-backed ETP options, as well as the proposed options on Bitcoin Funds. The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of options on Bitcoin Funds in all trading sessions and to deter and detect violations of Exchange rules.

Specifically, the Exchange’s market surveillance staff also conducts surveillances with respect to the Bitcoin Funds and, as appropriate, would review activity in the underlying Funds when conducting surveillances for market abuse or manipulation in the options on each Trust. Additionally, the Exchange is a member of the Intermarket Surveillance Group (“ISG”) under the ISG Agreement. ISG members work together to coordinate surveillance and investigative information sharing in the stock, options, and futures markets. The Exchange will be able to obtain information regarding trading in the shares of the underlying Trusts from Nasdaq, LLC, Cboe Exchange, Inc., and other markets on which the Trusts trade through the ISG. In addition, the Exchange has a Regulatory Services Agreement (“RSA”) with the Financial Industry Regulatory Authority (“FINRA”). Pursuant to a multi-party 17d-2 joint plan, all options exchanges allocate regulatory responsibilities to FINRA to conduct certain options-related market surveillances.³⁷ Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on the Bitcoin Funds.

The underlying shares of spot bitcoin ETPs, including the Bitcoin Funds, are also subject to safeguards related to addressing market abuse and manipulation. As the Commission stated in its order approving proposals of several exchanges to list and trade shares of spot bitcoin-based exchange-traded products (“Bitcoin ETP Order”³⁸):

³⁷ Section 19(g)(1) of the Act, among other things, requires every SRO registered as a national securities exchange or national securities association to comply with the Act, the rules and regulations thereunder, and the SRO’s own rules, and, absent reasonable justification or excuse, enforce compliance by its members and persons associated with its members. See 15 U.S.C. 78q(d)(1) and 17 CFR 240.17d-2. Section 17(d)(1) of the Act allows the Commission to relieve an SRO of certain responsibilities with respect to members of the SRO who are also members of another SRO. Specifically, Section 17(d)(1) allows the Commission to relieve an SRO of its responsibilities to: (i) receive regulatory reports from such members; (ii) examine such members for compliance with the Act and the rules and regulations thereunder, and the rules of the SRO; or (iii) carry out other specified regulatory responsibilities with respect to such members.

³⁸ See Securities Exchange Act Release No. 99306 (January 10, 2024), 89 FR 3008 (January 17, 2024) (File Nos. SR-NYSEArca-2021-90; SR-NYSEArca-2023-44; SR-NYSEArca-2023-58; SR-NASDAQ-2023-016; SR-NASDAQ-2023-019; SR-CboeBZX-2023-028; SR-CboeBZX-2023-038; SR-CboeBZX-2023-040; SR-CboeBZX-2023-042; SRCboeBZX-2023-044; and SR-CboeBZX-2023-072) (Order Granting Accelerated

Each Exchange has a comprehensive surveillance-sharing agreement with the CME via their common membership in the Intermarket Surveillance Group. This facilitates the sharing of information that is available to the CME through its surveillance of its markets, including its surveillance of the CME bitcoin futures market.³⁹

Given the consistently high correlation between the CME bitcoin futures market and the spot bitcoin market, as confirmed by the Commission through robust correlation analysis, and given that the “CME’s surveillance can assist in detecting [the impact of fraud or manipulation] on CME bitcoin future prices,” the Commission was able to conclude that such surveillance sharing agreements could reasonably be “expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [Bitcoin ETPs].”⁴⁰

In light of surveillance measures related to both options and futures as well as the underlying Bitcoin Funds,⁴¹ the Exchange believes that existing surveillance procedures are designed to deter and detect possible manipulative behavior which might potentially arise from listing and trading the proposed options on the Bitcoin Funds.

Finally, quotation and last sale information for ETFs is available via the Consolidated Tape Association (“CTA”) high speed line. Quotation and last sale information for such

Approval of Proposed Rule Changes, as Modified by Amendments Thereto, to List and Trade Bitcoin-Based Commodity-Based Trust Shares and Trust Units) (“Bitcoin ETP Order”).

securities is also available from the exchange on which such securities are listed. Quotation and last sale information for options on Bitcoin Funds will be available via OPRA and major market data vendors.

The Exchange believes that offering options on the Bitcoin Funds will benefit investors by providing them with an additional, relatively lower cost investing tool to gain exposure to the price of Bitcoin and hedging vehicle to meet their investment needs in connection with Bitcoin-related products and positions. The Exchange expects investors will transact in options on Bitcoin Funds in the unregulated over-the-counter (“OTC”) options market,⁴² but may prefer to trade such options in a listed environment to receive the benefits of trading listed options, including (1) enhanced efficiency in initiating and closing out position; (2) increased market transparency; and (3) heightened contra-party creditworthiness due to the role of OCC as issuer and guarantor of all listed options. The Exchange believes that listing options on the Bitcoin Funds may cause investors to bring this liquidity to the Exchange, would increase market transparency and enhance the process of price discovery conducted on the Exchange through increased order flow. The Exchange notes that the ETPs that hold precious metal commodities on which the Exchange may already list and trade options are trusts structured in substantially the same manner as Bitcoin Funds and essentially offer the same objectives and benefits to investors, just with respect to different assets. The Exchange notes that it has not identified any issues with the continued listing and trading of options on any ETFs or ETPs that hold commodities (i.e., precious metals) that it currently lists and trades on the Exchange.

⁴² The Exchange understands from customers that investors have historically transacted in options on ETFs in the OTC options market if such options were not available for trading in a listed environment.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁴³ in general and furthers the objectives of Section 6(b)(5) of the Act⁴⁴ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, to protect investors and the public interest.

In particular, the Exchange believes that the proposal to list and trade options on the Bitcoin Funds will remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors because offering options on the Bitcoin Funds will provide investors with an opportunity to realize the benefits of utilizing options on a Bitcoin Fund, including cost efficiencies and increased hedging strategies.

The Exchange believes that offering Bitcoin Fund options will benefit investors by providing them with a relatively lower-cost risk management tool, which will allow them to manage their positions and associated risk in their portfolios more easily in connection with exposure to the price of Bitcoin and with Bitcoin-related products and positions. Additionally, the Exchange's offering of Bitcoin Fund options will provide investors with the ability to transact in such options in a listed market environment as opposed to in the unregulated OTC market, which would increase market transparency and enhance the process of price discovery conducted on the Exchange through increased order flow to the benefit of all investors. The Exchange also notes that it already lists options on other commodity-based ETPs,⁴⁵ which, as described above, are trusts structured in substantially the same manner as the Bitcoin Funds and

⁴³ 15 U.S.C. 78f(b).

⁴⁴ 15 U.S.C. 78f(b)(5).

⁴⁵ See Rule 5.3-O(g).

essentially offer the same objectives and benefits to investors, just with respect to a different commodity (i.e., Bitcoin rather than precious metals) and for which the Exchange has not identified any issues with the continued listing and trading of commodity-backed ETP options it currently lists for trading.

The Exchange also believes the proposed rule change will remove impediments to and perfect the mechanism of a free and open market and a national market system, because it is consistent with current Exchange Rules previously filed with the Commission. Options on the Bitcoin Funds satisfy the initial listing standards and continued listing standards currently in the Exchange Rules applicable to options on all ETFs and ETPs, including ETPs that hold other commodities already deemed appropriate for options trading on the Exchange. Additionally, as demonstrated above, each Bitcoin Fund is characterized by a substantial number of shares that are widely held and actively traded. Bitcoin Fund options will trade in the same manner as any other ETF or ETP options — the same Exchange Rules that currently govern the listing and trading of options, including permissible expirations, strike prices, minimum increments, and margin requirements, will govern the listing and trading of options on the Bitcoin Funds in the same manner.

The Exchange believes the proposed rule change to exclude the Bitcoin Funds from being eligible for trading as FLEX options is consistent with the Act, because it will permit the Exchange to continue to participate in ongoing discussions with the Commission regarding appropriate position limits for options on the Bitcoin Funds.⁴⁶

⁴⁶ The Exchange will submit a separate rule filing that would permit the Exchange to authorize for trading FLEX options on the Bitcoin Funds (which filing may propose changes to existing FLEX option position limits for such options if appropriate).

The proposed position and exercise limit for options on the Bitcoin Funds is 25,000 contracts. These position and exercise limits are the lowest position and exercise limits available in the options industry, are extremely conservative and more than appropriate given the Bitcoin Funds' market capitalization, average daily volume, number of beneficial holders, and high number of outstanding shares. The proposed position and exercise limits are consistent with the Act as they address concerns related to manipulation and protection of investors because the position and exercise limits are extremely conservative and more than appropriate given the Bitcoin Funds are actively traded.

The Exchange also believes the proposed rule change to Rule 5.32-O, to make clear that options on the Bitcoin Funds are not eligible for FLEX trading, will remove impediments to and perfect the mechanism of a free and open market and a national market system because it adds clarity and transparency to Exchange Rules making them easier to navigate and understand to the benefit of investors and the public interest.

The Exchange represents that it has the necessary systems capacity to support the new Bitcoin Fund options. The Exchange believes that its existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options, including Bitcoin Fund options. The Exchange's existing surveillance and reporting safeguards are designed to deter and detect possible manipulative behavior which might arise from listing and trading options on ETFs and ETPs, such as (existing) precious metal-commodity backed ETP options as well as the proposed options on Bitcoin Funds. The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of options on Bitcoin Funds in all trading sessions and to deter and detect violations of Exchange rules.

Specifically, the Exchange's market surveillance staff also conducts surveillances with respect to the Bitcoin Funds and, as appropriate, would review activity in the underlying Funds when conducting surveillances for market abuse or manipulation in the options on each Trust. Additionally, the Exchange is a member of the Intermarket Surveillance Group ("ISG") under the ISG Agreement. ISG members work together to coordinate surveillance and investigative information sharing in the stock, options, and futures markets. The Exchange will be able to obtain information regarding trading in the shares of the underlying Trusts from Nasdaq, LLC, Cboe Exchange, Inc., and other markets on which the Trusts trade through the ISG. In addition, the Exchange is a party to an RSA with FINRA and pursuant to a multi-party 17d-2 joint plan, all options exchanges allocate regulatory responsibilities to FINRA to conduct certain options-related market surveillances. Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on the Bitcoin Funds.

The underlying shares of spot bitcoin ETPs, including the Bitcoin Funds, are also subject to safeguards related to addressing market abuse and manipulation. As the Commission stated in its order approving proposals of several exchanges to list and trade shares of spot bitcoin-based ETPs, "[e]ach Exchange has a comprehensive surveillance-sharing agreement with the CME via their common membership in the Intermarket Surveillance Group. This facilitates the sharing of information that is available to the CME through its surveillance of its markets, including its surveillance of the CME bitcoin futures market."⁴⁷ Given the consistently high correlation between the CME bitcoin futures market and the spot bitcoin market, as confirmed by the Commission through robust correlation analysis, and given that the "CME's surveillance can assist in detecting [the impact of fraud or manipulation] on CME bitcoin future prices," the

⁴⁷ See Bitcoin ETP Order, 89 FR at 3009.

Commission was able to conclude that such surveillance sharing agreements could reasonably be “expected to assist in surveilling for fraudulent and manipulative acts and practices in the specific context of the [Bitcoin ETPs].”⁴⁸ In light of surveillance measures related to both options and futures as well as the underlying Bitcoin Funds,⁴⁹ the Exchange believes that existing surveillance procedures are designed to deter and detect possible manipulative behavior which might potentially arise from listing and trading the proposed options on the Bitcoin Funds. Further, the Exchange will implement any new surveillance procedures it deems necessary to effectively monitor the trading of options on Bitcoin ETPs.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

Intramarket Competition: The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act as options on the Bitcoin Funds would need to satisfy the initial listing standards set forth in the Exchange Rules in the same manner as any other option on an ETF before the Exchange could list these options. Additionally, Bitcoin Fund options will be equally available to all market participants who wish to trade such options. The Exchange

⁴⁸ See Bitcoin ETP Order, 89 FR at 3010-11.

⁴⁹ See Amendment No. 1 to Proposed Rule Change to List and Trade Shares of the iShares Bitcoin Trust under Nasdaq Rule 5711(d), Commodity-Based Trust Shares (SR-NASDAQ-2023-016), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-nasdaq-2023-016/srnasdaq2023016-357659-883042.pdf>; Amendment No. 5 to Proposed Rule Change to List and Trade Shares of the ARK 21Shares Bitcoin ETF under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-028), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-028/srcboebzx2023028-358679-884202.pdf>; ; and Amendment No. 3 to Proposed Rule Change to List and Trade Shares of the Fidelity Wise Origin Bitcoin Fund under BZX Rule 14.11(e)(4), Commodity-Based Trust Shares (SR-CboeBZX-2023-044), filed Jan. 5, 2024, available at <https://www.sec.gov/comments/sr-cboebzx-2023-044/srcboebzx2023044-358759-884163.pdf>.

Rules currently applicable to the listing and trading of options on ETFs on the Exchange will apply in the same manner to the listing and trading of all options on the Bitcoin Funds. Also, and as stated above, the Exchange already lists options on other commodity-based ETPs.⁵⁰

Intermarket Competition: The Exchange does not believe that the proposal to list and trade options on Bitcoin Funds will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the extent that the advent of Bitcoin Fund options trading on the Exchange may make the Exchange a more attractive marketplace to market participants at other exchanges, such market participants are free to elect to become market participants on the Exchange. As noted herein, this is a competitive filing as the Commission recently approved the listing and trading of options on the Bitcoin Funds on other options exchanges.⁵¹

Additionally, other options exchanges are free to amend their listing rules, as applicable, to permit them to list and trade options on the Bitcoin Funds. The Exchange notes that listing and trading Bitcoin Fund options on the Exchange will subject such options to transparent exchange-based rules as well as price discovery and liquidity, as opposed to alternatively trading such options in the OTC market.

The Exchange believes that the proposed rule change may relieve any burden on, or otherwise promote, competition as it is designed to increase competition for order flow on the Exchange in a manner that is beneficial to investors by providing them with a lower-cost option to hedge their investment portfolios. The Exchange notes that it operates in a highly competitive

⁵⁰ Rule 5.3-O(g) permits the listing and trading of options on shares of the following trusts: SPDR Gold Trust, the iShares COMEX Gold Trust, the iShares Silver Trust, the ETFS Silver Trust, the ETFS Gold Trust, ETFS Palladium Trust, or ETFS Platinum Trust. See Rule 5.3-O(g)(iv)-(vi) and (viii)-(ix).

⁵¹ See also supra notes 4 and 5 (regarding the IBIT Approval Order and the FBTC and ARKB Approval Order).

market in which market participants can readily direct order flow to competing venues that offer similar products. Ultimately, the Exchange believes that offering Bitcoin Fund options for trading on the Exchange will promote competition by providing investors with an additional, relatively low-cost means to hedge their portfolios and meet their investment needs in connection with Bitcoin prices and Bitcoin-related products and positions on a listed options exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁵² and Rule 19b-4(f)(6) thereunder.⁵³ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)⁵⁴ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),⁵⁵ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon

⁵² 15 U.S.C. 78s(b)(3)(A)(iii).

⁵³ 17 CFR 240.19b-4(f)(6).

⁵⁴ 17 CFR 240.19b-4(f)(6).

⁵⁵ 17 CFR 240.19b-4(f)(6)(iii).

filing.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)⁵⁶ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NYSEARCA-2024-100 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NYSEARCA-2024-100. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will

⁵⁶ 15 U.S.C. 78s(b)(2)(B).

post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NYSEARCA-2024-100 and should be submitted on or before [INSERT DATE 21 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁵⁷

Sherry R. Haywood,

Assistant Secretary.

RULES OF THE NYSE ARCA, INC.

RULE 5-O OPTION CONTRACTS TRADED ON THE EXCHANGE

Section 2. Underlying Securities

Rule 5.3-O. Criteria for Underlying Securities

Underlying securities with respect to which put or call option contracts are approved for listing and trading on the Exchange must meet the following criteria:

(a) - (f) No Change.

(g) *Exchange-Traded Fund Shares*. Securities deemed appropriate for options trading shall include shares or other securities ("Exchange-Traded Fund Shares" or "Fund Shares") that are traded on a national securities exchange and are defined as an "NMS stock" in Rule 600(b)(47) of Regulation NMS, and that (i) represent an interest in a registered investment company organized as an open-end management investment company, a unit investment trust or a similar entity which holds securities and/or financial instruments, options on securities and indices, equity caps, collars and floors, swap agreements, forward contracts, repurchase agreements and reverse repurchase agreements (the "Financial Instruments"), and money market instruments, including, but not limited to, U.S. government securities and repurchase agreements (the "Money Market Instruments") constituting or otherwise based on or representing an investment in an index or portfolio of securities and/or Financial Instruments and Money Market Instruments, or (ii) represent interests in a trust or similar entity that holds a specified non-U.S. currency deposited with the trust or similar entity when aggregated in some specified minimum number may be surrendered to the trust by the beneficial owner to receive the specified non-U.S. currency and pays the beneficial owner interest and other distributions on the deposited non-U.S. currency, if any, declared and paid by the trust; or (iii) represent commodity pool interests principally engaged, directly or indirectly, in holding and/or managing portfolios or baskets of securities, commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and/or non-U.S. currency ("Commodity Pool Units"), or (iv) represent interests in the SPDR Gold Trust, or (v) represent interests in the iShares COMEX Gold Trust, or (vi) represent interests in the iShares Silver Trust, (vii) represents an interest in a registered investment company ("Investment Company") organized as an open-end management investment company or similar entity, that invests in a portfolio of securities selected by the Investment Company's investment adviser consistent with the Investment Company's investment objectives and policies, which is issued in a specified

aggregate minimum number in return for a deposit of a specified portfolio of securities and/or a cash amount with a value equal to the next determined net asset value (“NAV”), and when aggregated in the same specified minimum number, may be redeemed at a holder's request, which holder will be paid a specified portfolio of securities and/or cash with a value equal to the next determined NAV ("Managed Fund Share"), or, (viii) represents interests in the ETFS Silver Trust or ETFS Gold Trust, or, (ix) represents interests in the ETFS Palladium Trust or ETFS Platinum Trust, provided:

- (1) (A) the Exchange-Traded Fund Shares meet the criteria and guidelines for underlying securities set forth in Rule 5.3-O(a) and (b); or
 - (B) the Exchange-Traded Fund Shares must be available for creation or redemption each business day in cash or in kind from or through the issuing trust, investment company, commodity pool or other issuer at a price related to the net asset value. In addition, the issuing trust, investment company, commodity pool, or other issuer is obligated to issue Fund Shares in a specified aggregate number even though some or all of the investment assets needed to be deposited have not been received by the issuing trust, investment company, commodity pool, or other issuer, provided the authorized creation participant has undertaken to deliver the investment assets as soon as possible and such undertaking has been secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the issuer of Fund Shares which underlie the option as described in the Fund Shares’ prospectus; and
- (2) The Exchange-Traded Fund Shares meet the following criteria:
 - (A) the Exchange-Traded Fund Shares are listed pursuant to generic listing standards for series of portfolio depositary receipts or index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required; or
 - (B) (i) any non-U.S. component securities (including fixed-income) in an index or portfolio of securities on which the Fund Shares are based that are not subject to comprehensive surveillance agreements do not in the aggregate represent more than 50% of the weight of the index or portfolio;
 - (ii) component securities (including fixed-income) of an index or portfolio of securities on which Fund Shares are based for which the primary market is in any one country that is not subject to a comprehensive surveillance agreement do not represent 20% or more of the weight of the index;
 - (iii) component securities (including fixed-income) of an index or portfolio of securities on which Fund Shares are based for which the primary market is in any two countries that are not subject to comprehensive surveillance agreements do not represent 33% or more of the weight of the index;

(iv) for Funds that hold a specified non-U.S. currency deposited with the trust, the Exchange has entered into an appropriate comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in derivatives (options or futures) on the specified non-U.S. currency, which are utilized by the national securities exchange where the underlying Funds are listed and traded; and

(v) for Commodity Pool Units, the Exchange has entered into a comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in such commodity futures contracts and/or options on commodity futures contracts on the specified commodities or non-U.S. currency, which are utilized by the national securities exchange where the underlying Commodity Pool Units are listed and traded.

(h) - (j) No Change.

Commentary:

.01 The Exchange may list and trade options on shares of the iShares Bitcoin Trust (symbol: IBIT), the Fidelity Wise Origin Bitcoin Fund (symbol: FBTC), and the ARK21Shares Bitcoin ETF (symbol: ARKB), pursuant to Rules 5.3-O and 5.4-O.

Rule 5.4-O. Withdrawal of Approval of Underlying Securities

Commentary:

.02 For purposes Rule 5.4-O(k), iShares Bitcoin Trust (symbol: IBIT), the Fidelity Wise Origin Bitcoin Fund (symbol: FBTC), and the ARK21Shares Bitcoin ETF (symbol: ARKB), are deemed to be “Exchange-Traded Fund Shares.”

Section 4. Flexible Exchange (“FLEX”) Options

Rule 5.32-O. Terms of FLEX Options

(f) Special Terms for FLEX Equity Options

- (1) The Exchange may approve and open for trading any FLEX Equity Options series on any security that is eligible for Non-FLEX Options trading under Rule 5.3-O (except those set forth in Commentary .01 to Rule 5.3-O), and that has Non-FLEX Options on such security listed and traded on at least one national securities exchange, even if the Exchange does not list and trade such Non-FLEX Options;

RULE 6-O OPTION TRADING

Rules Principally Applicable to Trading of Option Contracts

Rule 6.8-O. Position Limits

Commentary:

.01 - .05 No change.

.06

(a) - (e) No change.

(f) The position limit for the options contracts set forth below are as follows:

Options	Position Limits
